

Charlie, Dixie, Tony and Addison going around the world to an adventure.

One day Charlie and Tony went through the woods and saw some very beautiful and rare plants and carried on walking through the wildness.

While walking they came across a strange looking passage, so Charlie and tony went through and peeked across the twisting emerald green vines.

What they saw was amazing!!

They saw two cute red foxes playing and having fun

and a really happy black and white badger looking for food.

So, Charlie and tony carried on walking through the woods and met up with Addison and dixie.

They chatted for a while until they heard a big

# BOOM!!!

Everybody jumped a bit and went to find out what it was.

They walked for about 10 minutes until they found a mysterious door. They opened the door and it creaked open.

They saw a couple of trees and lots of sand, so Charlie, Tony, Addison and Dixie decided to go in. They soon realised it was the savannah...

They saw elephants, lions, giraffes, zebras, rhinos, deer's and buffalos, although one of the trees looked kind of weird.

They were walking and walking and walking, and they finally reached the tree.

They noticed next to the tree was a gigantic portal

**SO, DO YOU KNOW WHAT THEY DID ?**

You guessed right. They went through the portal and teleported into the ocean, but luckily, they were all in a submarine.

They saw amazing animals like

A sea turtle, lion fish, puffer fish, and the one they liked the most was the massive stingray.

So, after a while of looking at animals, they suddenly teleported back to their mansion with lots of garden and 37 pets. They said to each other: “I’ll always remember this moment”
