

You're about to print your own book. How exciting!

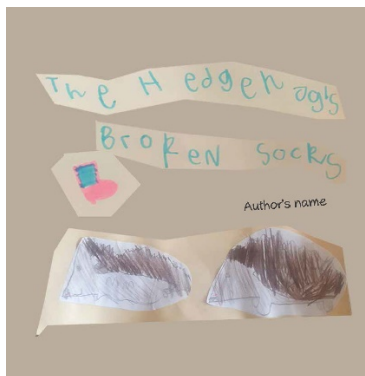

This template is just a guide to help you. Feel free to change text font and colour, add/remove background and images. Make it your own!

This template is for a square book 20 x 20 cm but we also have templates for A5 and A4 Just ask if you need one ☺

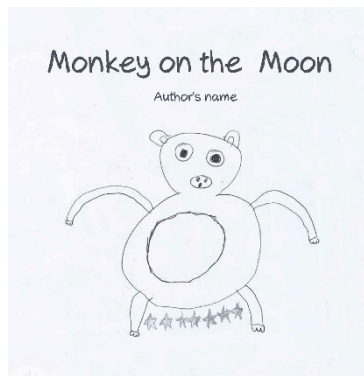

The book needs to be between 18 - 24 pages (or more if you paid for more). This may seem like a lot if your story is quite short, but it really isn't. Check out your children's books at home. Some have just one or two sentences per page, in quite large writing. You can also add as many illustrations as you like, poems, or make this book a collection of several of your favourite stories or drawings.

Be creative. This book is YOURS.

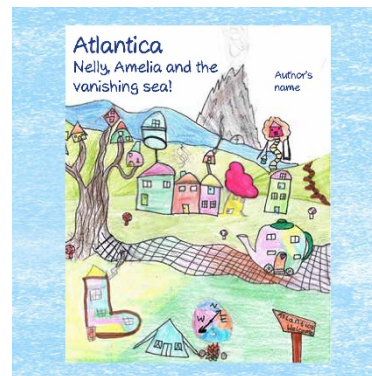

Here are a few examples of stories children have made into books.

Short story

Medium story

Long story

You can view more stories on Saronti's online gallery

www.saronti.com/young-authors-gallery. We'll publish your book there too if you want us to ☺

Have fun!
