# CHAPTER 1

I am going to tell you a story about when I was only just fourteen years old, on my birthday. I lived in a big, pretty farm on the muddy green hill in the forest. One day, I asked my mum if I could go outside, and she said yes. So, I got my boots on and went outside. I saw a pink oval portal outside that kept on spinning around in a circle, I thought it was my imagination, but it was not. So, I went to go and touch it and it pulled me in. I had no choice but to go!!!

When I jumped in the portal, I spotted loads of fairies, Elves, Dragons, and unicorns. I decided to go and take a closer look around. But then my mum started calling my name, I did not know how I could hear her. Eventually, I proceeded to go inside my house. I spotted a large variety

of food, I decided to eat a lot so I could be full for the next day.

However, a letter just arrived at the door. I got out of my wooden chair and grabbed the letter. Then I started to stop eating and put my attention to the letter instead and it announced:

*Dear miss Jackson,*

*I have heard that you have seen the land named fantasy and you are fourteen years old. We would like to offer you a place in whomping secondary school. Below is a list of all the things you will need for school this term.*

- *unicorn shampoo*
- *unicorn saddle*
- *unicorn food*
- *unicorn brush*
- *unicorn accessories*
- *uniform*

**I did not know what to do.**

## CHAPTER 2

The next day I decided to show my mum the letter. "Of course you can go, I've always wanted you to try something new anyway," my mum replied in a sweet voice.

After that, I grabbed three bags and saw the portal and jumped in.

I discovered the crowded market at Janes Avenue. I dipped my hand into my purple coat pocket and grabbed my letter. I grabbed all the objects I needed from the stores. Then, there was only one thing left, my uniform. I proceeded to go inside the store, "how can I help you," said a croaky voice behind me that made me jump. Then I turned around and saw an old lady holding a long, green measuring stick. "Oh, umm I need some uniform from the whomping secondary school," I replied politely. "Alright dear let me measure you" said the old lady's croaky voice again. And then brought out some fancy uniform and paid her.

A couple of months later it was time to go to the Whomping school. I sprinted toward my bedroom and grabbed my heavy luggage and went through the portal again. But when I was through the portal I was already at school! It was crowded. When I looked up, I saw the building. The building looked like it was a castle, it had diamonds on the top and lots of silver and gold. I went inside and saw that it was even more glamorous than the outside of the castle it had more diamonds and more gold and silver. I chose to go to my dorm and get unpacked, I had to look for the number 132 then I asked someone. And they said that it was on the seventh floor. Once I got there, I started unpacking my stuff when suddenly I realised that there were two beds and I got really upset. Why do I have to sleep with someone else just think about them snoring.

## CHAPTER 3

The next day I went outside for my first unicorn riding session. "Today we will be walking to the meadow to get a unicorn for each of you!" the teacher called out excitedly. Everyone started running toward the meadow except for me. I felt like I was small. I was going to cry I was blinking so much so the tears couldn't seek through my eye. When suddenly someone came, she asked if we could be friends! It was like I was jumping on a rainbow. "My name is olive what's your Name?"

"Oh, my name is Sadie!" I said as fast as possible. We sprinted towards the meadow and looked for some unicorns.

A few hours later, I found a gorgeous unicorn, she had white all over her body and her unicorn horn was rainbow and it was sparkly and shiny, I loved her. We had to go through a gate to get some unicorn riding uniform and see what powers our unicorns had. When I went through the gate, I discovered that my unicorn had all the powers I was shocked, I never knew unicorns could have all the powers it was probably rare. When I was escorted out of the gate by the teacher, I went to Olive, and

she gave me a smile and thumbs up she knew my unicorn had all the powers. Olive's unicorn had ice powers. When the lesson had finished, me and Olive went to have lunch.

\*\*\*\*\*

When I finished lunch, I saw that there was only one lesson a day. Me and olive chose to go to the library for our free time. It was incredibly quiet, so we decided to read silently. After that she told me that her dorm room number was also 132. We headed up to our dorm with our books and started reading. Then it was time for dinner when we went into the hot food line and waited for our meal to be served. When someone had served our meal, we found an empty table and sat on it then two other girls sat on the table. "Hi, my name is Matilda," said one girl.

"My name is Florence," said the other girl. When I finished eating, I headed to my dorm, and called my mum we talked for minutes then it started getting late, so I went to bed. The next day we had magical powers lesson. I went to join Olive, Matilda, and Florence for breakfast. It turned out I was making friends quite quickly. When we all finished our

breakfast, we headed outside for our first lesson but sadly Matilda was scheduled to do another lesson than us. We sat on the benches and started reading some books to keep us busy for waiting till the other children. A few minutes later, the teacher came. "Good morning class, today we will be practicing our powers!" exclaimed the teacher. "Depending on what powers your unicorn has that will be what you will be practicing!" the teacher continued. I was really upset because I had to work extra hard than the others. "We'll help you with your powers!" said Florence and Olive at the same time. I was extremely glad that I wasn't on my own. When we picked a corner to practice, I practiced water first with Florence because her unicorn had water powers. When I finished practicing my water powers, I went to Olive to practice my ice powers. A couple of hours passed by, and the lesson had finished. Ms Smith who was the magical powers teacher called my name; I went towards her. "Hi, you erm called my name," I said to the teacher.

"Oh yes I've heard that your unicorn has all the powers that also means that you have all the powers, you will have to work extra," replied Ms Smith.

"When will I have the extra lessons?" I asked respectfully.

"Every day after lunch that should be good, if you need some help just ask me, ok," replied the teacher. "You will not have your extra lesson today though," she continued. I went to join my friends at lunch then we started talking. "We should go to the stables today!" said Matilda excitedly.

"Yeah, why not," me, Florence and Matilda said at the same time. After that, all of us headed to the stables, Olive's unicorn was silver and black. Florence's unicorn was green, pink, and blue, and finally Matilda's unicorn was red, orange, and brown. We started grooming our unicorns. Then we went on the trail with our unicorns after an hour, we went to the lunch hall for our dinner I had spaghetti bolognese and so did the others. Then I decided to call my mum with my friends so she could see them. My mum saw Olive's green eyes and brown hair, she also saw Florence's messy blonde hair as well as her blue eyes, then finally I spotted Matilda's black hair and her blue and green eyes then it started getting late, so we went to bed.

The next day I had scones and when I went to do my first history of magic, I wasn't as excited than I had been in all the other lessons because

it just seemed a bit boring but I read some books about it so I was sure I would be good at it. When I finished the lesson, I learnt that there was an evil lady who wanted to take over the school and that if they came the teachers would be there to protect us. I was listening to the teacher the whole time. When I finished eating lunch, I went downstairs outside to magical powers lesson Ms said that I did a lot of splendid work. Then I went to dinner to eat baked beans. When I went to bed, Olive said that we should have a sleepover with Matilda and Florence. "Sure, actually that would be really fun!" I replied. the next day me and Olive told Matilda and Florence about the sleepover, and they agreed to it. Me and Matilda went to potions together while Olive and Florence went to the library.

Once we got to class, I saw the teacher who had died her hair green, and she had a black and violet dress. She had an evil expression on her face. "You two girls come over here right now!" she screeched evilly. Then I saw that she pointed her two fingers towards me and Matilda we both got out of our seats. "Now I want you two girls to drink my potion, but it is wrong, and the class will see what happens when the grow potion fails!" she said.

Shivers ran down my spine I was terrified. Ms Retta (who was our potion teacher) held out a big spoon to us. "TAKE IT NOOOOOOWWWW!" she screeched at the top of her lungs. I snatched it of her and so did Matilda and took a sip from the spoon, but nothing happened then suddenly, I started doing cartwheels and so did Matilda, I urged myself to stop then I stopped. The class vanished into the hallway and so did the teacher.

"MATILDAAA I'M COMING DON'T WORRY" I screeched politely.

"UNCURSE" I yelled unsteadily. The spell worked and Matilda stopped doing cartwheels. We travelled towards the lunch hall and told Florence and Olive about our lesson that day, and they burst out laughing!

"Told you so!" laughed Olive nicely.

I headed downstairs for magical powers lessons and saw Ms smith with her brown hair and red dress.

“Oh, hi, come sit down,” Ms Smith said politely. Once I sat down, she said that we would be practicing our fire powers. We practice for hours until it went dark, so I headed to the seventh floor to get dressed for bed. When I went to bed, I heard people screaming and shouting for help. I peeked out through a crack of the door and saw a tall lady with a dark dress. I thought she was a teacher, so I asked her what was going on but then she turned me into stone. I started breathing heavily and realised I was alive and, in my cosy, bright and colourful dorm. Olive was sitting up and staring at me in the eyes. “You were screaming Sadie,” whispered Olive peacefully.

“Oh, umm, was I?” I said whilst biting my lip.

When me and my friends had breakfast, we saw that there were no lessons for today I went to check with Ms. Smith if I had a lesson with her.

“Oh, no you don’t have your power lesson today because none of you, students are not supposed to be outside,” replied Ms. Smith calmly.

Why we can’t go outside, it’s very weird. I thought to myself.

\*\*\*\*\*

I kept on asking Matilda why we couldn’t go outside and loads of other questions connected to that.

“Oh, come on, Sadie I don’t know the answer to any of these questions you’re asking me right now!” yelled Matilda angrily.

“Sorry” I replied meaningfully.

I went to the shopping mall in the school to see my friends because they asked if I could meet them there. We went to the milkshake store to get some milkshakes when we found a seat inside, we started talking about why we couldn’t go outside. We found out soon enough that it was because there was an evil person trying to take over the school and her

name was Rose. We decided to try stop rose from hurting the school. Then we went outside and went to fetch my unicorn and so did the others when we finished planning on what to do, we sneakily tiptoed outside and dodged all the teachers.

## CHAPTER 4

We saw the revolting Rose with her black and red dress that went down all the way to her feet and you could barely see her red and black high heels, her eyes were as red as blood and her hair was as white as milk. "FREZE" I yelled as loud as I could at rose. She stared at me, but she did not freeze, I was very confused, but I had no time to think. My unicorn started trotting away, I stood up carefully and quickly on my unicorn and jumped off and told my friends to leave.

"WHY AREN'T YOU GOING AWAY SADIE?!" asked Rose rudely.

"HOW DO YOU KNOW MY NAME?" I screeched at the top of my lungs half scared at the same time.

"Oh, I know everything!" she said calmly.

The teachers suddenly twisted their body to face me.

"ROSE LEAVE SADIE ALONE RIGHT THIS INSTANCE!" screeched Ms. Smith.

I ran as fast as my legs could carry me to my dorm before the teachers could say anything to me. Once I spotted Olive, Florence, and Matilda I started filling them in on everything that happened. We started looking out through the window but all we could see were sparks of colours shooting in every direction. Then it all went dark and silent.

“What happened” asked Florence while also trying to break the silence.

“I- I don’t know” I replied fearfully.

“I think the teachers stopped” replied Matilda.

I ran downstairs to go defeat rose.

“NO SADIE YOU CAN’T DO THIS BY YOURSELF!” screeched Matilda and Olive.

Florence, Matilda, and olive stalked behind me. The we saw that the teachers were all on the floor lying down.

“WHAT HAVE YOU DONE!” we screamed in chorus.

“Oh, isn’t it amazing girls,” she replied. “And that might happen to you,” she continued.

“LIGHT!” I cried.

“ICE!” screeched Olive.

“NATURE!” yelled Florence.

“FIRE!” yelled Matilda.

“Your too feeble to defeat me with just you two.  
“Oh, we never said it was just us three” I said.

Then the rest of the school came rushing down to help us defeat her, some were on the roof. Sparks went in every direction. And finally, she fell to the ground with a thud.

“Were we too weak” I said smirking at Rose.  
The teachers unexpectedly woke up from the stone. Ms. Smith came with handcuffs in her hand and put them on Rose.

“I’LL BE BACK FOR YOUUUU” she screeched.

We locked her up in a cave with all her powers in a locket.

## CHAPTER 5

After that, well, everything went back to normal. I had the usual lessons still; Ms Retta was still as mean as can be and I still had my friends beside me whenever anything terrible happened like me needing help in potions or me getting into trouble for nothing. We realised that next year we would have more lessons and more things to learn.

As time flew by the year sadly ended, and in an entire year I became extremely popular in school because I defeated Rose. The teachers would keep a close eye on Rose regularly. On the train that I went on to go home I ate loads of snacks, but I shared them with my friends and other people on the train.

My friends and I started talking joyfully we realised that it was time to depart the train. I said my farewells and hopped out of the old-fashioned train. When I got off, I saw my mum, ran towards her, and gave her a massive hug. We walked chattily all the way home.
